

Environmental policy NordArom AB

NordArom AB has a target that the *environmental management should be a framework for integrating and balancing environmental interests to develop a sustainable environmental efforts in the short and long term*, this is ensured through that:

- all legal requirements and regulations is met
- all employees is aware of our environmental policy and actively contribute to that it's been fulfilled
- the company strives to reduce consumption of energy, and make sustainable choices, in relation to the amount produced flavours and colours
- we let the recycling principles guide our company as far as possible
- NordArom maintains an open and transparent dialogue with customers, suppliers, employees, authorities and the general public about the environmental issues
- by following environmental goals and established environmental action plans is there a continual improvement process for the environmental work
